How to find a publisher for my book in india

"To write what is worth publishing, to find honest people to publish it, and get sensible people to read it, are the three great difficulties in being an author."

Charles Caleb Colton A question that plagues a writer while writing and on completing their manuscript is, -' Will my book get published?' How to get a book published in India? In this post we take you through the popular ways to publish and important guidelines for a successful book publishing experience. There are four popular ways to publish a book The traditional method of publishing Self-Publishing eBook Publishing Audiobook publishing Tips on How to get a book published in India First, decide the kind of book you have written? Is the book a novel or a work of non-fiction? Here are some broad guidelines that will immensely help a first-time author find his way in the tricky world of traditional publishing. When one refers to conventional publishing, one talks of publishing where the publisher takes a call to publish your book based on the publishers' needs. Whether the publisher would like to publish the book, based on the publishers' requirements. In this type of publishing, the publisher takes on the entire cost of publishing and may give the author advance royalties. Here are some guidelines for publishing books in different genres. For novels and memoirs: You should have finished and polished the manuscript before you even think about getting it published. For most non-fictions: You can either complete your manuscript or send a book proposal (a book proposal will be akin to a business plan for your book) in advance to a publisher and convince him to contract and pay you to write the book. If you're writing a hybrid work (personal vignettes mixed with instructions or a multi-genre work that includes essays, stories, and poetry), it is somewhat challenging to get a publisher to accept it. Your focus will be to gather all guidelines to ensure a smooth traditional publishing experience. 2. Polish your novel Publishing a book involves going over your work time and again until you think it is as good as you can make it. It will help if you go over it after an interval to see if it can be further improved. Take the help of author friends, editors to enhance your work. Friends and family usually cannot and will not give you critical feedback. Hence it makes sense to approach a professional, such as a developmental editor, to review your work. Polishing your novel means you should look at all common traps that writers commit while writing a book. 3. Write a synopsis The length of the required summary will vary from publisher to publisher. Read their guidelines and give them what they want. As a general rule, a synopsis should not be longer than one page. A well-written outline that captures the essence of your book is essential. This not only reflects what your story is about but also your style of writing. 4. Write a query letter Read the submission guidelines of the publishing company. Frame your query letter to include all information asked for, and no more. This is your first interaction with the publisher and you should invest adequate time and research to get it right. Remember, the publisher receives hundreds of queries every day, so you must stick to the publishers guidelines. Click on the link to read some dos and don'ts for writing your query letter 5. Research agents and publishers You must research books in your category or genre and note the names of the publishing houses that are publishing books in your genre and approach them for your publishing needs. When you are approaching conventional publishers, you can take the guidance of a literary agent who has contacts with these publishing houses and who can pitch your book to them. Getting accepted by a conventional publishing house could be a long process with no surety that your book will be accepted for publishing. 6. Be prepared for Rejections You will receive rejection letters. Do not take this personally. Some of the letters will contain constructive criticisms. Learn from them. Most of the rejections, however, will be standard letters. Throw those letters in the trash and forget about them. Don't give up. Just keep sending out more letters to more conventional publishers. This is a numbers game. You are more likely to send out dozens, if not hundreds, of queries before someone expresses interest. This can take months or sometimes even years. Just remain patient. It only takes one 'Yes' to make everything worthwhile. Typically, writers who do not want to depend on the vagaries of publishers or wait for a long time to put out their work are increasingly looking at self-publishing as an option. If self-publishing a book is an option then your question will be – how to self publish a book in India? Go ahead and research for the best self-publishing house. Once you have zeroed in on a publishing company that works for you, study their offerings and the cost of publishing, your budget and decide what works best for you. The above publishing options work well for print, eBooks and audiobooks. If you are keen on publishing an eBook, several new possibilities open up before you both paid and free options. In India, print books are still the preferred medium for reading books, both for economic reasons and otherwise. Audiobooks are a relatively new but growing medium of book publishing. Start your next project.....even if the earlier one is still awaiting publication. However, the path to publication isn't the same for every author. Did your book publishing journey unfold differently? Please share with us your experience in getting your book published. These three publishing houses are by far the most reliable. While Notion Press and Blue Rose, deals with a huge number of books, their quality sometimes gets compromised for understandable reasons but Blue Hill Publications only accepts the books they find worth publishing. So, in my opinion, if you want your book to be published without quality getting compromised at any point in time, Blue Hill is the way to go. I hope this helps. I am looking for freelance editing/proofreading jobs online. I have edited one book and ghostwritten 3 theses, with extensive research, which were received well. Please let me know if you offer such opportunities. Thanks BLUE ROSE Publishers are robbing authors with high prices and extremely poor service. they collect money and stop answering calls. Many authors had to struggle to get their book publishers. I am a retired Engineer. I have written down my experience on travelling to Kailash-Manas via Tibet in the year 2018. I am looking for a reliable self publishing house who can really produce a quality product. Any idea about " Asian Press " ? Please help me in identifying a reliable publisher. Hi You have shared excellent list of self publishing and print on demand services providers, you may add in your list, we have published 400+ Title in just 3 years Hi! I have just recently put up my book on Bollywood Caricatures (Volume I) for self-publication on Amazon's eBook and paperback versions. As with other first time authors, I too did not do a complete research, but only partially, since there's a lot of data to be read and it creates unnecessary confusion at the start (when I had the idea in my mind and had the content work in progress). I came to know later that there's no paperback printing in India through Amazon! Even the author copies are available to them on order based on the printing cost, but what hurts more is the shipping costs, for a \$15 List Price of the book, the shipping cost is about \$16-\$17, so total cost of the book for one copy of the paperback version to be received in India goes to about INR 2300!!! Moreover, the book is thin, and I am afraid the idea about paperback through Amazon publishing may fail for those ordering from India. As somebody in the audience said, it's almost impossible for audience to purchase paperback version from India through Amazon, forget about the Indian author himself/herself, it is highly difficult to order author copies because of the price!!! Please Share Authentic Publishing house in hindi with Good Services Excellent list. Please add pub dials in your list as Publishers search engine if appropriate. Thank you. Hi You have shared excellent list of self publishing and print on demand services providers, and it is very helpful for the people who are looking for digital publishing services, you what we are also one of the best digital publication companies in India and we provide end to end accessibility and XML, Transactional services too. Mean while please do visit our site: Excellent write-up. Please give us more insight into Hindi publishing. What about Exceller Books pls. Thanks. Thank you for this extensive list. Your blogs are really helpful for budding authors. There's a term you get to hear a lot these days – Partner Publishing/ Hybrid Publishing. A lot of agents I have contacted use them. Also, there are publishing houses using these terms. I personally find them similar to self-publishing. I'd love to know your thoughts about them. Or maybe a compilation partner publishers in India. Thanks) This is the single most comprehensive list I've come across regarding self-publishing. I really appreciate you for the time and effort you've put into this. In my search for my first publisher, I did come across a publisher, not listed in this article. Could you please check them out and give us a review? Book Leaf Publishing – Thanks again Really, I impressed by this post related to self publishing companies in India. The person who created this post is a genius and knows how to keep the readers connected. Thanks for sharing this with us. Really appreciate the amount of work you have put in providing details of so many publishers involved in self publishing. I know it is difficult to rank or rate but something of that sort would have been of great help. Excellent list. Please add pub dials in your list as Publishers search engine if appropriate. Thank you. This site uses Akismet to reduce spam. Learn how your comment data is processed.
